about porcelain

La resistencia que la naturaleza ha conseguido crear durante miles de años, gracias a la tecnología se consigue en unas horas. Los materiales porcelánicos tienen la misma resistencia que una roca, pero Ecoceramic lo consigue gracias a las materias primas, el prensado y los ciclos de calor al que se expone. Como broche final, un diseño exquisito que se consigue adaptando la naturaleza a miles de gráficas en nuestros materiales porcelánicos.

The resistance that natural materials acquire over thousands of years can now be achieved with technology in just a few hours. Ecoceramic's porcelain tile materials have the same resistance as rock, thanks to the raw materials that are used and the pressing system and firing cycles to which the tiles are subject. This resistance is combined with an exquisite design inspired by nature, bringing a multitude of different patterns to our porcelain tiles.
