cerámica

General Catalogue

ecoceramic
cerámica

Ecoceramic forma parte de Pamesa Grupo Empresarial, un gran grupo productor de cerámica que se ha posicionado como el primer productor en Europa y el 4º a nivel mundial.

Ecoceramic is part of Pamesa Business Group, a major tile consortium that has forged a position as Europe's top tile producer and the world's fourth top-ranking one.

Nuestra marca se define en tres grandes atributos:

Our brand name stands out for its three main hallmarks:

VALOR SEGURO, ADAPTABILIDAD Y CERCANÍA.

GUARANTEED VALUE, ADAPTABILITY, AND PERSONAL SERVICE.

Valor seguro.

Nuestro saber hacer, respaldado por la experiencia de un gran grupo que lleva más de 50 años al frente del sector cerámico español, nos avalan.

Guaranteed value.

We offer the assurance of expertise and the long experience of the Pamesa Business Group, Spain's leading tile group for over 50 years.

Cercanía.

Uno de nuestros secretos es nuestro equipo humano, alrededor de 100 personas trabajando para ti, para conseguir una atención al cliente de calidad.

Customer proximity.

One of our secrets is our team of staff: over 100 people working for you, to achieve quality customer service.

Adaptabilidad.

En el siguiente catálogo podrás encontrar más de 800 referencias de productos cerámicos para cubrir cualquier necesidad que tengas. Nuestros productos van desde la gama Commodity, productos básicos que pueden adaptarse a cualquier presupuesto y diseño, hasta la gama Design, productos con un diseño mucho más cuidado y acabados exquisitos.

Adaptability.

In the following catalogue, you can find over 800 different tile products able to meet all possible requirements, from our Commodity range (a basic line, conceived to suit all budgets and design needs) to our Design range (with superlative designs and exquisite finishes).

simbología / legend

	Porcelánico / Porcelain tiles		In & Out
	Pasta roja / Red body		Pulido / Polished

about

ultra gloss

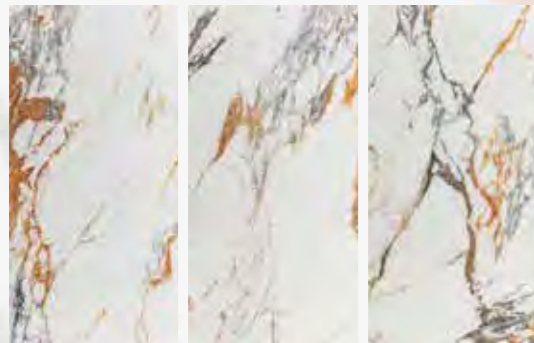

La gama más refinada de nuestro catálogo. Piezas XXL unidas a un acabado super brillante. Las nuevas tecnologías de fabricación permiten conseguir acabados ultra brillantes en las piezas de la familia Ultra Gloss. Gracias a las granillas brillantes después del pulido consiguen un acabado brillante efecto espejo.

Our most sophisticated range, Ultra Gloss combines an XXL format with an extra glossy finish, thanks to the use of new manufacturing technologies. The glossy grits on the tiles lend them a mirror-like shine once they have been polished.

about full color body

Todas las características técnicas del porcelánico: resistencia, bajo mantenimiento... junto con las ventajas de la masa coloreada, que, en caso de rotura, gracias al color uniforme de toda su pieza, pasa desapercibido. Unido a los diseños y formatos mejor valorados del mercado.

This range combines all the technical properties of porcelain tiles (resistance, easy care etc.) with the benefits of fullbody ceramic. If the surface of these tiles is chipped, thanks to their uniform colour throughout, the flaw will go unnoticed. What's more, they come in some of the most popular designs and formats on the market.

about porcelain

La resistencia que la naturaleza ha conseguido crear durante miles de años, gracias a la tecnología se consigue en unas horas. Los materiales porcelánicos tienen la misma resistencia que una roca, pero Ecoceramic lo consigue gracias a las materias primas, el prensado y los ciclos de calor al que se expone. Como broche final, un diseño exquisito se consigue adaptando la naturaleza a miles de gráficas en nuestros materiales porcelánicos.

The resistance that natural materials acquire over thousands of years can now be achieved with technology in just a few hours. Ecoceramic's porcelain tile materials have the same resistance as rock, thanks to the raw materials that are used and the pressing system and firing cycles to which the tiles are subjected. This resistance is combined with an exquisite design inspired by nature, bringing a multitude of different patterns to our porcelain tiles.

about slim

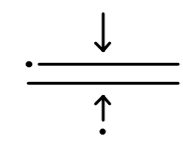

El avance de la tecnología, junto a la investigación de nuestro departamento de I+D+i, permite que la cerámica esté en constante evolución. Nuestra última novedad: una nueva gama de porcelánicos que mantiene sus características: resistencia, bajo mantenimiento, diseño... pero con un espesor reducido que nos permite dar paso a nuevas ventajas añadidas: más eco, reducción de costes de transporte... Elige tu producto Slim; entre los porcelánicos más Design, con acabados y diseños más exquisitos, o los Essentials, aquellos porcelánicos aptos para todos los públicos.

Thanks to technological developments and research by our R&D&I Department, our ceramic tiles never stop evolving. Our latest innovation is a new porcelain tile range that combines all the characteristics of porcelain tile materials (resistance, low maintenance, design appeal) with a slimline thickness, opening up new added benefits, such as eco-friendly gains and savings on the cost of transport. Choose the perfect Slim tile model for you from among our designer products with more exquisite designs and finishes or our essentials (porcelain tiles suitable for users of all kinds).

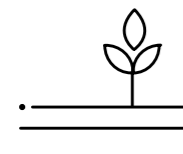

SLIM

Se ha conseguido reducir su espesor, llegando a desarrollar productos de 6.7 a 6.8 mm, manteniendo sus características técnicas.

A reduced thickness of just 6.7 to 6.8 mm has been achieved, while still maintaining all the product's technical characteristics.

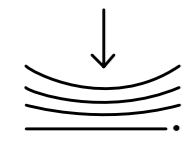

ECO

Se utiliza un 30% menos de materias primas, y por lo tanto un 30% menos de energía para su producción, lo que se traduce en menos emisiones de CO2.

30% fewer raw materials are used to make these tiles, leading to 30% energy savings in their manufacture and fewer CO2 emissions.

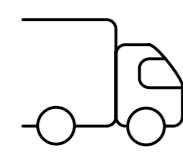

FLEXIBLE

Las materias primas utilizadas en su fabricación, permiten que el material sea más flexible, lo que nos da un material más fácil de manejar, y más fácil de colocar.

Thanks to the raw materials used to manufacture them, these tiles are more flexible, making them easier to handle and simpler to lay.

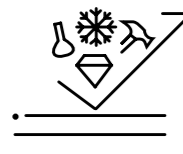

VERSATILE

Su espesor reducido, nos permite minorar el peso de cada pieza, por lo transportarlo será más económico, al cargar más material en la misma carga.

Due to their slimmer thickness, these tiles are lighter in weight, saving on transport costs since more tiles can be transported in the same delivered load.

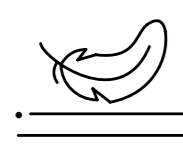

RESISTANT

La nueva tecnología de prensado y las materias primas optimas, consiguen una resistencia mejorada.

Through the use of new pressing technology and an optimum combination of raw materials, tiles with an improved resistance have been achieved.

LIGHT

Un material más compacto, que reduce su peso, pero mantiene su resistencia.

More compact tiles, ensuring a lower weight, while still maintaining the necessary resistance.

about

eco 2.0

Eco 2.0 agrupa las colecciones esponsoradas de Ecoceramic. Productos mucho más resistentes gracias a su espesor de 20mm. Esta tipología de productos destaca por su aplicación para exteriores gracias a su acabado antideslizante y su resistencia, que permiten además una fácil instalación en terrazas y jardines sin necesidad de morteros. punto de diferenciación y clase a los espacios.

Eco 2.0 unites all Ecoceramic's extra thick tiles. Their special thickness(20 mm) makes them far more resistant. They are particularly suitable for outdoor use thanks to their resistance and non-slip finish, also allowing for their easy mortar-free installation on terraces and in gardens.

about

eco woods

La evolución en la producción de los materiales cerámicos ha supuesto una revolución en el diseño de interiores. Eco Woods reproduce toda la sobriedad y serenidad de la madera en las piezas cerámicas que otorgan mayor resistencia y menos mantenimiento, conservando todas las cualidades del diseño más natural.

New developments in ceramic tiles have revolutionized the world of interior design. Eco Woods reproduces all the restful sobriety of wood on high resistance, low maintenance ceramic tiles, emulating all the natural beauty of a wood design.

about

eco small

Los pequeños detalles son los encargados de marcar la diferencia, en diseño de interiores también. Eco Small reúne las colecciones de piezas pequeñas diseñadas para dar un punto de diferenciación y clase a los espacios.

Smaller n er details are what truly make a difference. The same is also true of interior design. Eco Small is an umbrella range for Ecoceramic's small-format tile collections, allconceived to add a distinctive chic touch to living spaces.

about

eco rustic

Toda una gama de productos clásicos, pero a la vez atemporales en Eco Rustic. Pavimentos que reproducen los clásicos cotos, un estilo muy marcado y singular que se reúnen estas colecciones de Ecoceramic.

A classic tile range with a strong timeless appeal, it features our tiles designed to emulate all the unmistakable singular beauty of classic terracotta tiles.

about

eco stones

En el mundo de la construcción siempre ha sido las piedras. Las innitas tipologas, formas y colores, hacen de las piedras un complemento perfecto para decorar nuestra casa. Eco Stones reúne innitas tipologas de piedras en la cerámica. Diseño y resistencia unidos en un mismo material.

Stone has always been an indispensable feature in architecture. Thanks to its myriad of different types, shapes and colours, stone adds the perfect crowning touch in home design. Eco Stones brings a multitude of different varieties of stone to ceramic tiles, uniting resistance with design appeal.

about

eco white

Eco White es la tipología de productos de pasta blanca de Ecoceramic. Productos que por las materias primas utilizadas en su fabricación son la base perfecta para los diseños más auténticos y especiales. La pureza de las arcillas blancas hace que los colores de la cerámica resalten y se consigan tonalidades más vivas.

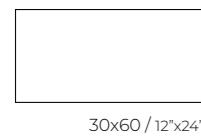

Eco White is Ecoceramic's whitebody tile range. The raw materials used to manufacture the tiles create the perfect backdrop for designs with a unique, highly original appeal. Thanks to the purity of the white clay, the colours of the designs shine out with added vitality.

about

eco red wall tiles

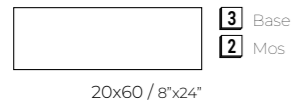

Eco Red, comprende los productos de pasta roja de Ecoceramic. La cerámica pasta roja es una tipología de material cerámico llamado de esta forma por las arcillas que se utilizan para su fabricación, que son de colores rojizos. Materiales versátiles utilizados normalmente para pared, aunque no puedes perderte su versión para pavimento.

Eco Red is Ecoceramic's red-body tile range. Red-body ceramic tile materials are named after the reddish clay used to manufacture them. These versatile tiles are normally used on walls, although the version for floor is another product not to be missed.

about

eco red floor tiles

Eco Red, comprende los productos de pasta roja de Ecoceramic. La cerámica pasta roja es una tipología de material cerámico llamado de esta forma por las arcillas que se utilizan para su fabricación, que son de colores rojizos. Materiales versátiles utilizados normalmente para pared, aunque no puedes perderte su versión para pavimento con el porcelánico pasta roja.

Eco Red is Ecoceramic's red-body tile range. Red-body ceramic tile materials are named after the reddish clay used to manufacture them. These versatile tiles are normally used on walls, although the redbody porcelain tile version for floors is another product not to be missed.

about

blancos

Blancos es la tipología de Ecoceramic que aglutina las colecciones con bases blancas. En esta tipología puedes elegir entre ininitas variantes del color blanco. Nunca un solo color había traído tantas posibilidades: brillos, mates, relieves y formatos para adaptarse a todo tipo de espacios y proyectos.

Blancos is a range that unites all Ecoceramic's tile collections featuring white tiles. It encompasses a multitude of different variations of the colour white. Never has one colour offered so much potential, with a choice of glossy or matt finishes, relief textures and formats to fit in with a wide variety of projects and settings.

about eco mallas

Elige el diseño de EcoMallas que más te guste y combínalo con cualquier colección del catálogo.
 Todos los diseños de EcoMallas se pueden producir con todas las colecciones de Ecoceramic.
 EcoMallas ha sido certificado con la etiqueta Solar Impulse.
 Más del 70% de materiales reciclados.
 Proceso de fabricación respetuoso con el medio ambiente.
 Colaboración con centros de integración social.
 Vida útil de unos 50 años.
 Más de 25 diseños que se pueden combinar con cualquier colección de Ecoceramic.

Choose the EcoMallas design that you like the most and combine it with any collection in the catalog.
 All EcoMallas designs can be produced with all Ecoceramic collections.
 EcoMallas have been certified with Solar Impulse label.
 More than 70% recycled materials.
 Manufactured under an environmentally friendly industrial process.
 Collaboration with social and laboral integration centers.
 Durability of about 50 years.
 Almost 25 different designs that can be combined with any Ecoceramic collection.

Certificaciones Certifications

Leadership in Energy and Environmental Design: considerado un termómetro global para la construcción verde. Es una certificación que se le otorga a los proyectos o edificios sostenibles de construcción.

Leadership in Energy and Environmental Design is a worldwide green building indicator. It is a certificate awarded to projects or buildings made in accordance with sustainable practices.

FloorScore® es la norma de certificación de la calidad del aire interior (IAQ) más reconocida para materiales de suelos de superficie dura, adhesivos y bases. Expone que nuestros productos no tienen compuestos orgánicos volátiles.

FloorScore® is the most widely recognized indoor air quality (IAQ) certification standard for hard surface flooring materials, adhesives and underlayments.

Un EPD (Environmental, Product Declaration), Declaración Ambiental de Producto es una etiqueta que define los productos que siguen unas declaraciones ambientales conforme una normativa global y que se supervisa por un 3°.

An EPD (Environmental Product Declaration) is a label that identifies products which adhere to an environmental declaration, drawn up in accordance with an international standard and with third-party verification

La ISO 9001 Determina los requisitos para un Sistema de Gestión de la Calidad, que debe utilizarse para su aplicación interna en las organizaciones. La certificación ISO 14001 es una normativa internacional que identifica a las empresas que tienen un compromiso y una responsabilidad con el medio ambiente

ISO 9001 identifies the requirements for a Quality Management System, which is used for internal application in organizations. ISO 14001 certification is an international standard. It identifies companies with a responsibility and commitment to environmental care.

Una FDE es una Declaración Ambiental y de Salud de Producto. Las FDE, son francesas, por lo que se trata de una declaración ambiental específica para dicho país. Pero, estas normas francesas son mucho más exhaustivas y concretas, y contienen mucha más información que las DAPs.

An FDE is an Environmental and Health Product Declaration. These standards are French and so this is a specific environmental declaration for France. These French standards are far more exhaustive and specific and they contain far more information than an EPD.

Se trata de una certificación francesa que hace servir criterios de la norma EN ISO 14411 de baldosas cerámicas (europea) y otros propios (QB-32 y el Cahier 3778) para clasificar el material.

This is a French certification system based on criteria established in the EN ISO 14411 European ceramic tile standard and other French ones (QB-32 and Cahier 3778) for the classification of material.

El CE es una certificación autodeclarada. Está regulado por el Organismo Europeo de productos de construcción y es obligatorio para todos los productos de construcción que se comercializan en Europa, se establecen las propiedades o prestaciones mínimas que debe de tener el producto. El UKCA es igual que el CE pero para el Reino Unido.

CE is a self-certification procedure. The system, which is regulated by the EU Construction Products Regulation, is compulsory for all building products placed on the Spanish market. UKCA is exactly the same as the CE system.
